

Skyando Affiliate Agreement

Skyando partners can earn high commission payments for their travel portals, social media, vacation blogs, or similar websites through our affiliate program. We pay 80% commission on flight bookings made through referrals to us! Joining the skyando affiliate program is free.

1. Commission agreement

Many airlines, OTAs, and API partners pay us commissions for flight bookings made through skyando/Skyexplorer. The commission amount depends on the booking value, the airline, and the booking portal. If a booking is made by a customer who was redirected to skyando/SkyExplorer by a skyando affiliate partner, we pay a portion (80%) of this commission to the affiliate partner.

Please note that we can only pay you a commission for confirmed flight bookings. Simply being redirected to skyando.com or clicking through to airlines and OTAs without a booking being made is expressly not compensated by us. Furthermore, some airlines (especially low-cost carriers) do not pay commissions for bookings at all. Therefore, we cannot pay you a commission for bookings made through these airlines.

2. skyando AffiliateHub

After registration, the affiliate receives access to the skyando AffiliateHub and their personal affiliate ID.

The skyando AffiliateHub allows users to track flex searches, final searches, clickouts, revenues, and commissions. Flex searches, final searches, and clickouts can be reviewed daily with a 24-hour delay. Revenues and commissions can be reviewed daily with a 3-day delay.

3. Generate Affiliate Link

You can append your personal affiliate ID to any skyando domain (skyando.com, skyando.co.uk, skyando.es, skyando.com/en-ca, etc.) or skyexplorer.de URL using the suffix ?id="Your ID" (startpage) or &id="Your ID" (search).

Examples:

- <https://www.skyando.com/?id=12345>

- <https://www.skyando.com/results/LON/BRE/260226/050326?Mode=flex.....&direct=false&id=12345>

When the link is accessed, a cookie containing your personal ID is created on the user's device. As soon as the user makes a booking, your ID is automatically associated with that booking. Even after leaving skyando/SkyExplorer, the cookie remains on the user's device, ensuring that the association is maintained on subsequent visits to the website.

Please note that the ID suffix in the URL will be hidden again when navigating on skyando/SkyExplorer. However, this does not mean that tracking has stopped. Your personal ID has already been successfully stored in a cookie.

4. Payout

Periods at least 3 months in the past are eligible for payment when you have reached the payout threshold. To invoice us for the commission, click the "Generate Payout" button. Then, create a proper invoice for the amount and send it to us at: payment@skyando.com

You are free to choose when you invoice us for your commission. For example, you can invoice us monthly, quarterly, semi-annually, or annually.

5. Invoicing

Please only issue invoices for amounts for which you have requested a payout and received a payment ID.

Create a proper invoice for the amount and send it to us at:
payment@skyando.com

The invoice must be issued to:
neoda Solutions GbR
Stralsunder Ring 14
26160 Bad Zwischenahn
Germany
VAT identification number: DE348857475

The invoice must include the payment ID for allocation purposes.

The commission amount must be stated as a net amount. If you are based in Germany, you must add VAT accordingly. An exception exists only if you are subject to the small business regulation and are allowed to issue invoices without VAT.

European companies outside of Germany must use the reverse charge procedure without VAT.

If you are located outside the EU, you must issue the invoice without VAT.

Within the EU (European Monetary Union), we will pay the amount via SEPA bank transfer in Euro. Your invoice must include a valid IBAN for this.

Outside the EU (European Monetary Union), payment is currently only possible via PayPal in Euro. You are responsible for any exchange rate fees and PayPal fees.

The commission is calculated using the Euro as the currency basis. Foreign currencies are automatically converted by the system using the current exchange rate. However, this conversion is only an estimate and is not binding. Payment is made in Euros and can be converted to your currency via PayPal.

skyando's general terms and conditions (skyando.com/agb) still apply.
